Technology can affect your social life. (120 to 150 words)

- 1) Man's amazing progress is the invention of Technology. Technology has made man venture out to places which were unfathomable. we have the entire world in our drawing room.
- 2) we can connect to our relatives staying abroad.
- 3) we make a lot of friends online.in a virtual world however they are not real most of the time as their identity cannot be known.
- 4) we remain engrossed to our phones and we do not bother to talk to our families,which might affect our [personal lives.
- 5) The idea of sports and games are becoming obsolete as children are more interested in their mobile phones.
- 6) It can be concluded that man is a social animal and cannot live without fellow beings. It is however unnatural for men to only live in the virtual world without any connection with the real world. Hence a time will come when they will automatically learn to balance and good senses will prevail.
